

# Mark Hoefer

173 Windsor Drive · Lawrenceville, GA 30046 · Phone: (770) 313-5455 · E-Mail: mhoefer1@gmail.com

## Objective

A position, involving responsibility, as an active employee who is a team member working in order to achieve advancement and growth for the company.

## Experience

Monza Cloud – Sandy Springs, GA

July 2017 – April 2018

- Full-time developer building dev tools that simplify Azure application development and configuration management to make app development faster and more manageable overtime
- Learned how to use Azure APIs and created wrappers with visual tools that abstract the APIs complexity into a straightforward, ready-to-use tool.
- APIs I worked with: Notification Hub, Twilio, Storage Accounts, queues, Cloud Services, App Services
- Tools I used: Visual Studio, SQL Servers, SQL databases, stored procedures, LINQ, workers, etc.
- .NET Framework 4.6.2
- Worked from home on a team with three other developers where effective communication was critical.

CareerBuilder, LLC. – Norcross, GA

October 30, 2013 – August 21, 2015

- Full-time Software Engineer working as a team member under an agile project management style utilizing both scrum and kanban methodologies
- Built batch processes to query resume data and save it to our database using several different APIs
- Built front end fulfillment tool using HTML and Javascript to show stats about our clients data that I am told is still being used today!
- Held a role in which I directly interacted with clients to vet third party API's as usable systems in which we should integrate with.
- Worked with more senior engineers to learn development skills as well as with newer engineers to teach them skills.
- Used Microsoft Visual Studio 2013 with both Team Foundation Server and GitHub as source code management systems
- Developed backend code using both Visual Basic and C#
- Developed frontend HTML, CSS, and JavaScript
- Created SQL databases using Microsoft SQL Server Management Studio 2012 and utilized Data Objects to interact with them
- Experience with learning and integrating with third party API's using their documentation
- Experience with utilizing both FTP and SFTP
- .NET Framework 4.0

## Education

Georgia Tech

Nov 2018 - May 2019

Coding Boot Camp - Full Stack Software Development

The University of Georgia  
B.S. Computer Science

May 2017

Northview High School

May 2009
